

ECANUSA Conference 2016

Understanding and Managing ECANUSA Forests in a Changing Environment

Online Registration Closing Soon

The **University of Vermont** is hosting the 8th Eastern CANUSA conference in forest science from **September 30th to October 1st, 2016**. The theme for this year's gathering is "**Understanding and Managing ECANUSA Forests in a Changing Environment**".

A draft agenda is now available on the ECANUSA 2016 website, including a listing of invited and offered talks from many topic areas including concurrent sessions on:

- Silviculture
- Climate Change
- Invasive Species
- Tree Physiology
- Forest Structure and Carbon Dynamics
- Forest Products and Markets
- Remote Sensing and GIS tools
- Family Forestry and Landowner Engagement
- Land use and Forest Conversion

More information about the ECANUSA 2016 conference, including the **full agenda**, presentation **abstracts**, **registration portal**, **field trip** details **Society of American Foresters CFE credits**, and **hotel information** are available at:

www.uvm.edu/vmc/ecanusa2016

Many thanks!

The 8th ECANUSA Steering Committee
