

**Hubbard Brook Committee of Scientists Meeting
October 10, 2018 at the Cary Institute of Ecosystem Studies in Millbrook, NY**

**Resource Co-limitation in Northern Forests:
Commonalities & Differences Across Taxonomic Groups**

Begin	End	Speaker	Topic
10:00	10:10	Pam Templer	Welcome and Introductions
10:10	10:20	Melany Fisk	Concepts of Co-Limitation
10:20	10:30	Ruth Yanai	Optimal Allocation of Effort to Acquire Nutrients, Light, CO ₂ , Water
10:30	10:40	Tim Fahey	Light vs. Soil Resources (Pin Cherry Study)
10:40	10:50	Jenny Bhatnagar	Resource Limitation in Soil Microbes
10:50	11:00	Emma Rosi	Resource Limitation in Streams
11:00	11:10	Nina Lany	Resource Limitation in Insects and Birds
11:10	11:20	Lynn Christensen	Resource Limitation in Large Mammals
11:20	Noon	Discussion	Identify challenges for breakout groups
Noon	1:00	Lunch	
1:00	2:00	Business Meeting	Includes presentation by Bill Keeton about Proposal for New Tree Cutting Experiment at Hubbard Brook
2:00	2:45	Breakout Groups	Resource Co-Limitation in the Northern Forest
2:45	3:30	Discussion	Grand conclusions and next steps
3:30		Adjourn
