

Hubbard Brook Committee of Scientists Meeting
July 10, 2020: Connect Via Zoom
Field Report: Graduate Students Present Emerging Research at Hubbard Brook

Begin	End	Speaker	Topic
10:00	10:15	Christy Goodale & John Battles	Welcome & Introductions
10:15	11:00	Christy Goodale & John Battles	COS Business Meeting
11:00	11:10	Jenny Bower	Overview
11:10	11:20	Liz Studer	TrASH (Trillium-Ash-Soil-Heterotroph) Project: Population and community dynamics of the sub-canopy.
11:20	11:30	Maddy Cochrane	How Do Stream Salamanders Survive and Respond to Flow Variability across Hubbard Brook?
11:30	11:40	Madelyn Ore	The Genomic Landscape of Change: Black- throated Blue Warblers in a Shifting Ecosystem
11:40	Noon	Discussion	Relating local patterns to global change
Noon	12:30	Lunch Break	[small groups]
12:30	12:40	Alicia Brunner	Tracking Black-throated Blue Warblers at Hubbard Brook and Beyond
12:50	1:00	Alex Young	Effects of N and P addition on forest structural diversity using aerial LiDAR.
1:00	1:10	Amanda Pennino	What ion exchange resins can (and can't) tell us about shallow groundwater chemistry
1:10	1:50	Discussion	Shifting field priorities during scarce times [first half in small groups]
