

NOW OPEN!! FALL 2023 YOUNG VOICES OF SCIENCE PROGRAM

The *Hubbard Brook Research Foundation* is now accepting applications for our Fall 2023 cohort of the *Young Voices of Science* program.

The application process will close on September 22nd.

Young Voices of Science Program Fall 2023

- **What:** FREE science communication training and real-world practice for science scholars!
- **Who:** Graduate and undergraduate students in environmental (or similar) fields are eligible to apply
- **When:** Series of seven Zoom workshops held on Thursdays, October 5th through November 16th, 6:00 - 7:30 pm ET
- **Where:** Wherever you are, via Zoom!

Class size is limited – Apply by September 22nd!

This FREE program consists of a series of expert-led workshops, each designed to prepare and empower science scholars to share their knowledge, concerns, and hopes for the future with the wider world. We provide participants with a launch pad for public engagement, early in their scientific careers. Our workshop leaders are experts in public engagement with science, creative writing, storytelling, and science-to-policy outreach. Class size is limited to 20 participants; we ask that participants commit to all seven workshops and design and carry out at least one outreach activity, with support from a staff mentor.

The Hubbard Brook Research Foundation is the education outreach communication nonprofit based off of the Hubbard Brook LTER.
