

HUBBARD BROOK ECOSYSTEM STUDY

Special invitation to attend

**Town Hall Meeting:
Planning an Enhanced Mineral Weathering Experiment at Hubbard Brook**

*Tuesday, April 4, 2023
2:00–4:30 pm eastern, online via Zoom*

<https://us02web.zoom.us/j/89887974331?pwd=aWpsZElxMUZ3VIZudjJRY2Z3dVBDbz09>

To: Scientists, technicians, and staff who conduct and contribute to research at the Hubbard Brook Experimental Forest

From: Charles Driscoll, Syracuse University; James Saiers, Yale University; and Sarah Garlick, Hubbard Brook Research Foundation

Please join us on April 4 for a discussion of a proposed watershed-scale basalt/enhanced mineral weathering (EMW) experiment at Hubbard Brook.

The goals for this meeting are to:

- (1) Provide an overview of the scientific questions and project design for a proposed EMW experiment at Hubbard Brook
- (2) Identify interest and opportunities for leveraging this idea for other research and maximizing future value
- (3) Identify any blind spots or potential threats: i.e., are there existing efforts or sensitive areas that this project could negatively impact?

Agenda:

2:00–2:10 pm	Welcome and introductions
2:10–2:35 pm	Overview of the scientific questions and experimental design
2:35–2:40 pm	Broader impacts plans
2:40–3:00 pm	Clarifying questions
3:00–3:30 pm	Small group discussion: Opportunities and threats
3:30–3:40 pm	Debrief
3:40–3:50 pm	Break
3:50–4:20 pm	General discussion
4:20–4:30 pm	Summarize progress, remaining questions, next steps

Notes and a recording of the meeting will be available upon request following the meeting.
