FOUNDATION

HUBBARD BROOK PRESENTS

Fieldwork Initiative Training

The Fieldwork Initiative is a grassroots network of over 3,500 students and researchers facing trauma, unsafe conditions, or sexual harassment and assault during research fieldwork.

The Fieldwork Initiative seeks to maintain a network for victims who have struggled with trauma, racism, gendered violence while conducting research.

They aspire to make the FIEST training a mandatory seminar for all students before entering the field.

If interested in joining, please
RSVP using this form!

CONTACT DAYNA DE LA CRUZ WITH ANY QUESTIONS.
